Holly Borowski — Curriculum Vitae

Contact Information

Aerospace Engineering Department
University of Colorado
429 UCB
Boulder, CO 80309
E-mail: holly.borowski@colorado.edu
Phone: 719-213-3254

Research Interests

Game theory applied to distributed control systems. Convergence rates, efficiency, vulnerability to adversarial influence, and the role of information in multi-agent systems.

Education

University of Colorado, Boulder, Boulder, CO USA

Ph.D. Student, Aerospace Engineering (expected graduation date: May 2016)
Advisors: Dr. Jason Marden and Dr. Eric Frew
GPA: 3.96/4.0

San Francisco State University, San Francisco, CA USA

Mathematics coursework (M.A. level, no degree pursued)
GPA: 4.0/4.0

USAF Academy, Colorado Springs, CO USA

B.S., Mathematics, June, 2004
GPA: 3.63/4.0

Honors and Awards

Academic:

Philanthropic Educational Organization Scholarship, 2015
Zonta International Amelia Earhart Scholarship, 2014
NASA Aeronautics Graduate Scholarship, 2012
P. Sylow Algebra Scholarship (Mathematics), 2008

Military:

Joint Service Commendation Medal
Air Force Commendation Medal with one oak leaf cluster
Global War on Terrorism Expeditionary Medal
Space and Missile Systems Center nominee for 2010 Women in Aerospace Award

Professional Experience

University of Colorado

Graduate Research Assistant **August 2012 - present**
Performing research on game theoretic methods for distributed control, including convergence rates, efficiency, and the role of information in games.

Teaching Assistant **Fall 2013**
Teaching weekly lectures, holding office hours, and grading for Jason Marden's Discrete Mathematics course in the ECEN Department at CU-Boulder.

Graduate Research Assistant, RECUV **August 2011 - August 2012**
Performing research on unmanned aircraft path planning and decision making under uncertainty with the Research and Engineering Center for Unmanned Vehicles (RECUV).

Discovery Learning Apprenticeship Mentor **Spring 2012, 2013, 2014**
Mentored undergraduate students in developing engineering research posters. Served as a judge for the culminating research symposium poster competition.

US Air Force

Deputy Mission Manager **August 2008 - August 2010**
Captain
Managed integration efforts for the Space Test Program - S26 mission. Ensured the mission's four satellites, two cubesats, and launch vehicle met schedule and technical requirements for launch in November 2010.

World Class Athlete Program Cyclist **January 2007 - August 2008**
Lieutenant
Competed in national and international level road cycling events for the US Air Force.

12th Aircraft Maintenance Unit Assistant Officer in Charge **August 2004 - December 2006**
Lieutenant
Responsible for Global Hawk Unmanned Aerial System (UAS) sortie generation, fleet health, workforce training, and maintenance discipline. Developed readiness requirements for Global Hawk combat operations in the transition from a prototype to an operational system.

380th Expeditionary Aircraft Maintenance Unit Officer in Charge **June - November 2005**
Lieutenant
Led a 20 person team to maintain the Global Hawk UAS at Al Dhafra Air Base, UAE in support of Operations Iraqi Freedom and Enduring Freedom. Chosen to lead a 16 member extraction team to Kabul, Afghanistan to repair and retrieve a diverted Global Hawk aircraft.

Journal Publications

Borowski, H., Marden, J., "Fast Convergence in Semi-Anonymous Potential Games." to appear in the *IEEE Transactions on Control of Network Systems*

Borowski, H., Marden, J., Shamma, J., "Learning Efficient Correlated Equilibria." submitted for journal publication, 2015.

Conference Publications

Borowski, H., Marden, J. "Understanding the Influence of Adversaries in Distributed Systems." *the 54th IEEE Conference on Decision and Control*, 2015.

Borowski, H., Marden, J., Shamma, J. "Learning Efficient Correlated Equilibria." *the 53rd IEEE Conference on Decision and Control*, 2014.

Borowski, H., Marden, J. "Fast Convergence in Trajectories of Semi-Anonymous Potential Games." *the IEEE American Control Conference,* 2014.

Borowski, H., Marden, J., Frew, E. "Fast Convergence in Semi-Anonymous Potential Games." *the 52nd IEEE Conference on Decision and Control*, 2013.
